Ovens

STEAM

New cooking method that keeps the food juicy and also lock in more nutrition and goodness. A modern healthy cooking style to allow us to enjoy the meals as well as keep our figure.

FAN GRILL

This function is perfect for grilling foods such as fish, without the need for turning. The door must be left closed whilst grilling and browning will occur from the top element.

CONVECTION

A gentle heat for long slow cooking of fruit cakes, casseroles & slow roasts. Single level cook using the middle zone of the oven to achieve perfect results.

DEFROST

In defrost mode, no heating elements are used. Only the fan is activated to circulate air inside the oven for defrosting food.

AUTO PROGRAMS

The Auto cooking menu, offers 36 pre-set steam cooking functions and 12 pre-set non-steam cooking functions, including pizza, meat, vegetable, auto reheat, pasta, soup, fish, beverage, potato and popcorn.
